Exchange File (MB2S → MB3)

The marking files created with sketchbook2 (dedicated controller for MB2S) can convert for use with sketchbookDuo. Please download the latest version of sketchbook2 (Ver. 3.5.0 or later) from the following website:

<https://tocho-america.com/download/>

***Before installing, it is recommended to save your files in a separate folder in advance.**

How to Convert Files Saved on Your PC

- 1) Start sketchbook2, and from the menu bar select "File → Exchange to sketchbookDuo".
- 2) Select the folder in which to save the converted files. For smoother importing, select the sketchbookDuo's file save destination: C:\¥TOCHOMARKING¥sketchbookduo¥StampFile
- 3) After the conversion is complete, close sketchbook2, start sketchbookDuo and from the menu bar select "File → Open" to select the exchanged file.

How to Batch Convert Files Saved on the MB2S

- 1) With sketchbook2 and the MB2S controller connected, turn on the power and ensure the device is online.
- 2) From the menu bar, select "File Marking" and click the "Exchange all for SBD" button.
- 3) Select the folder in which to save the converted files. For smoother importing, select the sketchbookDuo's file save destination: C:\¥TOCHOMARKING¥sketchbookduo¥StampFile
- 4) After the conversion is complete, close sketchbook2, start sketchbookDuo and from the menu bar select "File → Open" to select the exchanged file.

***Files must be imported one at a time.**

Functions That Cannot Be Fully Converted

The following functions cannot be fully converted. Please reconfigure these functions after importing the file in sketchbookDuo:

- Reference Point (Anything other than the default bottom-left is not supported)
- Angle (Some functions such as vertical text, arcs, or shapes may not be supported)

- 2D Codes (Field links and dimension settings are not supported)
- Calendar (Single-digit or shift settings are not supported)
- Serial (Needs to be reconfigured)
- Logos (Need to be created and registered)
- Custom Fonts (Need to be created and registered)
- DXF, BMP (Need to be converted and registered)

Contact

Please contact our distributor if you have an inquiry for operation and malfunction.
